

Following Muhammad Rethinking Islam In The Contemporary World

Mohammed Arkoun, Robert D. Lee

Following Muhammad (EasyRead Super Large 18pt Edition) Carl W. Ernst, 2010

Following Muhammad Carl W. Ernst, 2005-10-12 Avoiding the traps of sensational political exposes and specialized scholarly Orientalism, Carl Ernst introduces readers to the profound spiritual resources of Islam while clarifying diversity and debate within the tradition. Framing his argument in terms of religious studies, Ernst describes how Protestant definitions of religion and anti-Muslim prejudice have affected views of Islam in Europe and America. He also covers the contemporary importance of Islam in both its traditional settings and its new locations and provides a context for understanding extremist movements like fundamentalism. He concludes with an overview of critical debates on important contemporary issues such as gender and veiling, state politics, and science and religion.

Following Muhammad Carl W. Ernst, 2004-08-01 A major contribution that explains the faith practiced by the more than one billion Muslims throughout the world. Departing from the usual Arab-centric bias, Ernst addresses Euro-Americans and illuminates the diversity of Muslim societies and thought. He describes how Protestant definitions of religion and anti-Muslim prejudice have affected how Islam has come to be viewed in Europe and America. He also covers the contemporary importance of Islam in both its traditional locations and its new homes.

Following Muhammad Carl W. Ernst, 2003 The author departs from the Middle Eastern-focused orientation of many guides to Islam, focusing on the religion as a worldwide phenomenon that is practiced by twenty percent of the world's population, covering the various movements within the religion that affect the modern world. (Religion--Islam)

Following Muhammad Carl W. Ernst, 2009-07-27 Avoiding the traps of sensational political expos and specialized scholarly Orientalism, Carl W. Ernst introduces readers to the profound spiritual resources of Islam while clarifying diversity and debate within the tradition. Framing his argument in terms of religious studies, Ernst describes how Protestant definitions of religion and anti-Muslim prejudice have affected views of Islam in Europe and America. He also covers the contemporary importance of Islam in both its traditional settings and its new locations and provides a context for understanding extremist movements like fundamentalism. He concludes with an overview of critical debates on important

contemporary issues such as gender and veiling, state politics, and science and religion.

Rethinking Islam in the Contemporary World Carl W. Ernst, 2004 An introduction to Islam, today the faith of more than a billion people, set in the context of world history and of religious studies.

Rethinking Islamic Studies Carl W. Ernst, Richard C. Martin, 2012-11-27 A groundbreaking response to the challenges of interpreting Islamic religion in the post-9/11 and post-Orientalist era Rethinking Islamic Studies upends scholarly roadblocks in post-Orientalist discourse within contemporary Islamic studies and carves fresh inroads toward a robust new understanding of the discipline, one that includes religious studies and other politically infused fields of inquiry. Editors Carl W. Ernst and Richard C. Martin, along with a distinguished group of scholars, map the trajectory of the study of Islam and offer innovative approaches to the theoretical and methodological frameworks that have traditionally dominated the field. In the volume's first section the contributors reexamine the underlying notions of modernity in the East and West and allow for the possibility of multiple and incongruent modernities. This opens a discussion of fundamentalism as a manifestation of the tensions of modernity in Muslim cultures. The second section addresses the volatile character of Islamic religious identity as expressed in religious and political movements at national and local levels. In the third section, contributors focus on Muslim communities in Asia and examine the formation of religious models and concepts as they appear in this region. This study concludes with an afterword by accomplished Islamic studies scholar Bruce B. Lawrence reflecting on the evolution of this post-Orientalist approach to Islam and placing the volume within existing and emerging scholarship. Rethinking Islamic Studies offers original perspectives for the discipline, each utilizing the tools of modern academic inquiry, to help illuminate contemporary incarnations of Islam for a growing audience of those invested in a sharper understanding of the Muslim world.

Rethinking Islam Mohammed Arkoun, Robert D. Lee, 2019-06-18 A Berber from the mountainous region of Algeria, Mohammed Arkoun is an internationally renowned scholar of Islamic thought. In this book, he advocates a conception of Islam as a stream of experience encompassing majorities and minorities, Sunni and Shi'a, popular mystics and erudite scholars, ancient heroes and modern critics. A product of Islamic

Muslims Andrew Rippin, 2005 This concise and authoritative guide provides a complete survey of Islamic history and thought from its formative period to the present day. It examines the unique elements that have combined to form Islam, in particular the Qu'ran and the influence of Muhammad, and traces the ways in which these sources have interacted historically to create Muslim theology and law, as well as the alternative visions of Islam found in Shi'ism and Sufism. The improved and expanded third edition now contains brand new sections on twenty-first century developments, from the Taliban to Jihad and Al-Qaeda, and includes updated references throughout.

How to Read the Qur'an Carl W. Ernst, 2011-12-05 For anyone, non-Muslim or Muslim, who wants to know how to

approach, read, and understand the text of the Qur'an, *How to Read the Qur'an* offers a compact introduction and reader's guide. Using a chronological reading of the text according to the conclusions of modern scholarship, Carl W. Ernst offers a nontheological approach that treats the Qur'an as a historical text that unfolded over time, in dialogue with its audience, during the career of the Prophet Muhammad.

Sufi Martyrs of Love C. Ernst, B. Lawrence, 2016-04-30 Sufism is a religion which emphasizes direct knowledge of the divine within each person, and meditation, music, song, and dance are seen as crucial spiritual strides toward attaining unity with God. Sufi paths of mysticism and devotion, motivated by Islamic ideals, are still chosen by men and women in countries from Morocco to China, and there are nearly one hundred orders around the world, eighty of which are present and thriving in the United States. The Chishti Sufi order has been the most widespread and popular of all Sufi traditions since the twelfth-century. *Sufi Martyrs of Love* offers a critical perspective on Western attitudes towards Islam and Sufism, clarifying its contemporary importance, both in the West and in traditional Sufi homelands. Finally, it provides access to the voices of Sufi authorities, through the translation of texts being offered in English for the first time.

Eternal Garden Carl W. Ernst, 1992-03-26 Ernst's research, based on rare Persian manuscripts preserved in Sufi shrines in the medieval town of Khuldabad, a major center of pilgrimage in the Indian Deccan, reveals the mystical teachings and practices of the Chishti Sufi order as taught by the ecstatic Shaykh Burhan al-Din Gharib (d. 1337) and his disciples. The book clarifies the diverse historiographical approaches found in an array of narratives. It redefines major topics in the often emotionally charged study of religion and history in South Asia, and it raises provocative theses on much-argued topics such as the basis of Islamic political power in South Asia and the alleged roles of Sufis as warriors and missionaries.

Sufism Carl W. Ernst, 2017-04-04 The classic introduction to the philosophies, practices, and history of Sufism, the mystical tradition of Islam The Sufis are as diverse as the countries in which they've flourished—from Morocco to India to China—and as varied as their distinctive forms of art, music, poetry, and dance. They are said to represent the mystical heart of Islam, yet the term Sufism is notoriously difficult to define, as it means different things to different people both within and outside the tradition. With that fact in mind, Carl Ernst explores the broadest range of Sufi philosophies and practices to provide one of the most complete and comprehensive introductions to Sufism available in English. He traces the history of the movement from the earliest days of Islam to the present day, along the way examining its relationship to the larger world of Islam and its encounters with both fundamentalism and secularism in the modern world.

Islamophobia in America C. Ernst, 2013-03-20 *Islamophobia in America* offers new perspectives on prejudice against Muslims, which has become increasingly widespread in the USA in the past decade. The contributors document the history of anti-Islamic sentiment in American culture, the scope of organized anti-Muslim propaganda, and the institutionalization of this kind of intolerance.

Islam in Contemporary World Asghar Ali Engineer, 2007 This book reflects on and re-evaluates various socially relevant topics of present times by bringing out the transcendental nature of the Qur'an and relating them to the demands of the contemporary world. Written lucidly, this well-researched and informative book will be a delightful read for scholars, students of Islamic Study, social scientists, as well as lay readers.

Journey to the End of Islam Michael Muhammad Knight, 2009-11-17 In *Journey to the End of Islam*, Michael Muhammad Knight — whose work has led to him being hailed as both the Jack Kerouac and Hunter S. Thompson of American Islam — wanders through Muslim countries, navigating between conflicting visions of his religion. Visiting holy sites in Pakistan, Syria, Egypt, and Ethiopia, Knight engages both the puritanical Islam promoted by Saudi globalization and the heretical strands of popular folk Islam: shrines, magic, music, and drugs. The conflict of “global” and “local” Islam speaks to Knight’s own experience approaching the Islamic world as a uniquely American Muslim with his own sources: the modern mythologies of the Nation of Islam and Five Percenters, as well as the arguments of Progressive Muslim thinkers for feminism and reform. Knight’s travels conclude at Islam’s spiritual center, the holy city of Mecca, where he performs the hajj required of every Muslim. During the rites of pilgrimage, he watches as all variations of Islam converge in one place, under the supervision of Saudi Arabia’s religious police. What results is a struggle to separate the spiritual from the political, Knight searching for a personal relationship to Islam in the context of how it's defined by the external world.

Muslim Pilgrimage in the Modern World Babak Rahimi, Peyman Eshaghi, 2019-04-23 Pilgrimage is one of the most significant ritual duties for Muslims, entailing the visitation and veneration of sites associated with the Prophet Muhammad or saintly figures. As demonstrated in this multidisciplinary volume, the lived religion of pilgrimage, defined by embodied devotional practices, is changing in an age characterized by commerce, technology, and new sociocultural and political frameworks. Traveling to and far beyond the Hajj, the most well-known Muslim pilgrimage, the volume's contributors reveal and analyze emerging contemporary Islamic pilgrimage practices around the world, in minority- and majority-Muslim countries as well as in urban and rural settings. What was once a tiny religious attraction in a remote village, for example, may begin to draw increasing numbers of pilgrims to shrines and tombs as the result of new means of travel, thus triggering significant changes in the traditional rituals, and livelihoods, of the local people. Organized around three key themes—history and politics; embodiment, memory, and material religion; and communications—the book reveals how rituals, practices, and institutions are experienced in the context of an inexorable global capitalism. The volume contributors are Sophia Rose Arjana, Rose Aslan, Robert R. Bianchi, Omar Kasmani, Azim Malikov, Lewis Mayo, Julian Millie, Reza Masoudi Nejad, Paulo G. Pinto, Babak Rahimi, Emilio Spadola, Edith Szanto, and Brannon Wheeler.

The Humanity of Muhammad Craig Considine, 2020-09-01 What makes an American Catholic of Irish and Italian descent one of the leading global voices in admiration of Prophet Muhammad? In this overview of Muhammad's life and

legacy, prominent scholar Craig Considine provides a sociological analysis of Muhammad's teachings and example. Considine shows how the Prophet embraced religious pluralism, envisioned a civic nation, stood for anti-racism, advocated for seeking knowledge, initiated women's rights, and followed the Golden Rule. Considine sheds light on the side of Prophet Muhammad that is often forgotten in mainstream depictions and media narratives. The Humanity of Muhammad is Considine's contribution to the growing body of literature on one of history's most important human beings.

Islam in the Eyes of the West Tareq Y. Ismael, Andrew Rippin, 2010-07-02 From the terrorist attacks of September 11, 2001 in New York to the Madrid and London bombings of 2004 and 2005, the presence of Muslim communities in the West has generated security issues and major political concern. The government, the media, and the general public have raised questions regarding potential links between Western Muslims, radical Islam and terrorism. This speculation has given rise to popular myths concerning the Islamic world and led to a host of illiberal measures such as illegal warranting, denial of Habeas Corpus, black prisons and extreme torture throughout the democratic world. This book challenges the authenticity of these myths and examines the ways in which they have been used to provide an ideological cover for the war on terror and the subsequent Iraq war. It argues that they are not only unfounded and hollow, but have also served a dangerous purpose, namely war-mongering and the empowering of the national-security state. It further considers the origin and transmission of these myths, focusing on media, government policy and popular discourse.

Islam in Pakistan Muhammad Qasim Zaman, 2020-08-04 The first book to explore the modern history of Islam in South Asia The first modern state to be founded in the name of Islam, Pakistan was the largest Muslim country in the world at the time of its establishment in 1947. Today it is the second-most populous, after Indonesia. Islam in Pakistan is the first comprehensive book to explore Islam's evolution in this region over the past century and a half, from the British colonial era to the present day. Muhammad Qasim Zaman presents a rich historical account of this major Muslim nation, insights into the rise and gradual decline of Islamic modernist thought in the South Asian region, and an understanding of how Islam has fared in the contemporary world. Much attention has been given to Pakistan's role in sustaining the Afghan struggle against the Soviet occupation in the 1980s, in the growth of the Taliban in the 1990s, and in the War on Terror after 9/11. But as Zaman shows, the nation's significance in matters relating to Islam has much deeper roots. Since the late nineteenth century, South Asia has witnessed important initiatives toward rethinking core Islamic texts and traditions in the interest of their compatibility with the imperatives of modern life. Traditionalist scholars and their institutions, too, have had a prominent presence in the region, as have Islamism and Sufism. Pakistan did not merely inherit these and other aspects of Islam. Rather, it has been and remains a site of intense contestation over Islam's public place, meaning, and interpretation. Examining how facets of Islam have been pivotal in Pakistani history, Islam in Pakistan offers sweeping perspectives on what constitutes an Islamic state.
